

IFMAR World Championship 1:5 Scale Touring Cars Lostallo, Switzerland 3-11 August 2013

STAGE TWO REPORT

Message from the Organisation Committee

The IFMAR World Championship 1:5 Scale Touring Car to be held from **August 3rd until the 11th 2013** is organised by the club Mini Racing Ticino and Moesa MRTM and in co- operation of the Switzerland Federation Swiss R/C Car Clubs Association SRCCA.

For this event the track in Lostallo in the South of Switzerland has been selected. The track is distinguished to be the longest and fastest track with generous premises in Switzerland and one of the biggest well know track in Europe. A lot of international events European Championship and a World Championship with EFRA and IFMAR compliance have already been held in responsibility of MRTM in the recent years, so the organisation committee can guarantee an improved experience with this performance licence.

We are proud of having the occasion to carry out one of the biggest event - the IFMAR World Championship 1:5 Scale Touring Car – and we will assure that the event is well run, well supported and well advertised.

For your accommodation choices we have chosen the San Bernardino region in the North. This region is well known for winter- and summer sport and experienced in handling big tourism. We are sure that you will feel you very comfortable in this giant atmosphere of the Swiss Alps and their leisure offers.

If you have any questions please be kept informed on our main portal www.mrtm.ch and also on our single contact point mrtm@bluewin.ch. Your queries will be supported and answered in a short notice time.

On behalf of the organising committee MRTM and of the Switzerland Federation SRCCA we welcome all our drivers and companies, the International Federation IFMAR with their joint blocs and the European Federation EFRA and all sponsors at the Lostallo Track.

Kindest regards

President of MRTM
Ernesto Camponovo

President of SRCCA
Jacqueline Aebi

Paddocks

The huge driver paddocks consists of 150 numbered working places. The tables are grouped in 4 spots each table groups supplied with a power panel.

From the driver's rostrum the paddocks located left and right handed in symmetry to each 75 places (in total 150 places). Easy to access the area and enough room for walking around.

A view in the north and the in the south corner where the places have been placed in line. The paddocks are completely covered and equipped with day light for all night workers. The drivers paddocks are directly beside the straight and attractive for watching the race from the workplace.

Electricity facility and plugs

At the track we have equipped all doubled with Swiss and Euro Plugs. All tables are equipped with at least 2 connector boxes doubled layered.

Be aware in hotels there are only Swiss plugs present!
